

--PRESS RELEASE--

October 17, 2000

Oxnard, CA-

Atilla M. Taluy announced that **FileYourTaxes.com** successfully tested a new and revolutionary method for e-filing personal income taxes with the **State of California Franchise Tax Board** (FTB) on or about October 16, 2000. This test used the **FTB's** newly installed Direct Filing Portal (DFP). Certain proprietary methods and algorithms developed by **FileYourTaxes.com** were employed in this test.

This method of filing is most conducive to the needs of taxpayers and those filers who desire to interactively deal with the government databases through **FileYourTaxes.com** facilities. Such e-filings are truly real time in nature, in that, the filer obtains the confirmation of a transaction prior to conclusion of the session, during which the data submissions and/or exchanges are made.

This actual real time method of filing by **FileYourTaxes.com** is now available and offered to all prospective governmental users. The providers of other multi-party filings such as Consumers to Businesses, Consumers to Governments, Businesses to Businesses, Businesses to Governments, Governments to Governments are also invited to investigate the applicability and utility of these services.

Atilla said, "**FileYourTaxes.com** has been an innovator in the OnLine arena. We developed our tax system from scratch, based on the needs of the OnLine filers. We were the first OnLine company to offer e-filed Federal 'extensions to file' and have participated in various pilot programs. Therefore, we are proudly taking part in heralding a new era, with the hopes of making it easier for all parties to join in the evolving e-Business and e-Government processes in a real time basis."
