online tax filing service site. Again, this year taxpayers will have an alternative to waiting in long lines to talk to their tax consultants and fighting crowds in the post offices; they can log on to FileYourTaxes.com Anywhere, Anytime and Securely.

This year the "Paperless Tax Return" and the ACH Debit payment method is being featured for qualified online filers.

We are an internet e-business dealing with precious, confidential personal data. We have taken many precautions so that the client's personal data is kept in the utmost confidence. We do not release the information to any one. Even what is sent to the government is released by the taxpayer through Consent to Disclosure statement. FileYourTaxes.com provides a secure data link between our server and the client's computer utilizing a RSA certificate issued by VeriSign. "The way you instill and retain your clients' trust is by treating their tax information with the same confidentiality that you treat your own," said Atilla M. Taluy, reflecting on his 30 years of tax practice.

FileYourTaxes.com provides authorized E-File service via the use of proprietary software developed by Atilla M. Taluy, with a software number assigned by IRS.
