FileYourTaxes.com EXPANDS THE FREE FILE TO COVER AMERICAN TAXPAYERS IN GREATER NUMBER OF STATES WITH A NEW FORMAT

Today, Atilla M. Taluy announced that resident taxpayers in the states of Alabama, Arizona, Arkansas, California, Colorado, Delaware, District of Columbia, Georgia, Idaho, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, North Carolina, Nebraska, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Virginia, or Wisconsin, together with all taxpayers that were of age 18 and under as of the last day of 2006 now qualify to use the OnLine facilities of FileYourTaxes.com to construct/prepare and eFile their Federal personal income tax returns, free of charge as part of the FreeTax by FileYourTaxes.com program. The IRS-Free File Alliance (FFA) agreement limits all FFA companies' offer to those taxpayers whose Adjusted Gross Income is not over \$52,000. FileYourTaxes.com is a member of the FFA that is made up of number of leading tax software companies, united with the goal of jointly making available free tax return services for up to seventy percent of the American taxpayer population.

Atilla said, "It pleases us to have been a part of the FFA which, in partnership with the IRS, has been serving the American taxpayers over the last five years. During this period an aggregate amount of nearly 16 Million free returns were donated, and to great satisfaction of large number of taxpayers according to Russell Research. This season, the FFA offerings will tentatively benefit 95 million taxpayers. We were very happy to see that for the first time, the number of eFiled returns exceeded those that were filed on paper last season. Our small, family owned and operated business is proud of our contributions to the taxpayers as well as having been a part of achieving the historic milestone, transitioning the filing majority to eFile.

In addition to the income limitation, we identified the youth as underserved in the tax arena. We feel that as a good corporate citizen, our contributed services will go a long way not only in mitigating the burden of cost for this demographic, but will also encourage the young to partake in voluntary compliance through the eFiling as they begin their future relationship with the IRS."

Noting that some of others in FFA offered abridged versions of their software, with limitations, Atilla continued, "We offer the same version of comprehensive software to every user, whether offered through the FFA or not. Concurrent with our technical superiority, and the new more convenient presentation format and appearance, FileYourTaxes.com is very attentive and vigilant in protecting the privacy of taxpayer data be it financial or demographic in nature; continuously seeking higher levels of security and encryption methodologies."

Both the physical and electronic security is continuously enforced. FileYourTaxes.com is a certified participant of the BBBOnLine® Privacy Program, is in compliance with the PCI standards as tested with ScanAlert, Inc., and the website is secured by a VeriSign® SSL certificate.

Atilla concluded, saying "This season, as has been the case for about a decade in the past, we at FileYourTaxes.com looks forward to extending benefit to each and every American taxpayer with our comprehensive OnLine program with security, and guaranteed calculation accuracy."
