

--PRESS RELEASE--

March 12, 2008

Oxnard, CA

FileYourTaxes.com Public Service Announcement FREE ONLINE TAX SERVICE FOR CALIFORNIANS

FileYourTaxes.com, a native California business, offers FREE Federal and California State Income Tax Returns to all California Residents March 27th through 28th, as a Public Service.

FileYourTaxes.com will provide absolutely FREE Federal and California State personal income tax return construction and eFiling to all California taxpayers, who are filing resident returns for the tax year 2007 and are providing California addresses on their income tax returns. Taxpayers do not need to purchase anything or follow any special steps other than beginning and completing the tax filing process on March 27th or March 28th. The taxpayers will enjoy the same system capabilities and limitations that are offered to the fee based users as part of this public service offering.

There are no other limitations such as income, profession type, filing status, etc. to qualify for this offer. Taxpayers can come to us directly at www.FileYourTaxes.com. This public service offer will also be available through the California Franchise Tax Board (FTB) website.

This novel public service is a part of our **FreeTax by FileYourTaxes.com** program.

The applicable rules for the FREE service qualification are as follows and these rules will be strictly enforced.

- The public service offer is valid, beginning at 12:01 AM Thursday March 27, 2008, and ending 11:59 PM Friday March 28, 2008 Prevailing Pacific Time.
- The qualifying return has to be started and completed and signed-off-on during these times. The returns that were started before the beginning time and those that are completed after the ending time will not qualify for this public service offer.
- Paper returns or paper return copy fees, Bank Product (RALS, etc.) related fees, credit card convenience fees associated with Balance Due tax payments, and other items sold separately are not covered with this public service offer and are not required for qualification for the free offer.
- There is no redeemable cash value to this public service offer and the offer is void in all jurisdictions where it may be prohibited by law.

In addition, with the recent legislation passed by the Congress and signed into law by President Bush, **FileYourTaxes.com** as a good corporate citizen is participating in the implementation of the **Economic Stimulus Payments (ESP)**. Eligibility criteria for ESP include that the citizens must file tax returns. Some citizens, such as those receiving payments from the Social Security Administration or Department of Veterans Affairs payments may not be required to file tax returns otherwise. For those citizens, **FileYourTaxes.com** developed a special eFiling process to accommodate fast and accurate construction and filing of such returns to the Internal Revenue Service (IRS).

This service is absolutely free of charge as part of our **FreeTax by FileYourTaxes.com** program for those citizens who need to file returns merely to qualify for the ESP and would not otherwise be required to file a tax return. To qualify for this free service, the filers must first go to the IRS website at <http://www.irs.gov/efile/lists/0,,id=179739,00.html> and then be referred to us from that page by clicking on our name.

FileYourTaxes.com is an IRS and Franchise Tax Board approved OnLine Tax Filing Service that has been providing tax return construction and eFiling since the first OnLine returns were filed in 1996.

FileYourTaxes.com is a proud member of the Free File Alliance, LLC, providing FREE tax returns and eFiling to millions of American taxpayers in partnership with the IRS as well as contributing returns through partnership with the FTB, on the FTB's website. This partnership makes free returns and eFiling available to low income and underserved California taxpayers throughout the current filing season.

FileYourTaxes.com uses the FTB's high technology, Secure Web Internet Transfer System (SWIFT) for the eFiling of the Personal California Income Tax Returns, and communicates- with the IRS securely using the TELNET-S protocol for the Federal and associated state returns.
